On May 3, 1907, the Spanish steamship *Alfonso XIII* entered this port from Spanish ports with one case of smallpox in the steerage. The patient, who had embarked at Bilbao, had been sick five days. The vessel was quarantined in this port and treated in the usual way by the Cuban quarantine authorities.

The sanitary condition of the city has remained fairly good.

*Report from Matanzas—Inspection of vessels—Summary for month
of April, 1907.*

Acting Assistant Surgeon Nuñez reports, May 6:

Week ended May 4, 1907. Bills of health issued to 8 vessels bound for ports in the United States in good sanitary condition. No quarantinable or communicable diseases reported within this district during the past week.

Month of April, 1907. Twenty-six bills of health issued to vessels leaving for United States ports having an aggregate number of 674 crew and 8 passengers in transit for several Cuban ports. One sailing vessel, the American schooner *Lottie R. Russell*, destined for Tampa, Fla., was fumigated, and 4 certificates of protection from smallpox were granted at the request of passengers bound for Tampa by way of Habana. There were no transactions for the Canal Zone nor for the Republic of Panama.

No quarantinable diseases were reported during the month.

Report from Santiago—Inspection of vessels.
